Baredine JAMA-GROTTA

MONUMENT OF NATURE & SHOWCAVE

Baredine cave is a real treasure of stalactites and stalagmites, underground sculptures created by patient and long lasting work of water. Because of its uniqueness the cave was declared a monument of nature and it has been opened for visitors since 1995. Another unique experience is the descent through five chambers to the underground lake and encounter with the cave olm – one of the endemic species of this karst area.

OPEN EVERY DAY FROM 01.04 TILL 31.10.
